

A decorative graphic on the left side of the slide consists of a grid of squares in various shades of blue and purple, arranged in a stepped pattern.

# Wrap up for next 4<sup>th</sup> AAI Summit : Safety Session

# Safety Session

**In safety session, There are many contributions from institute such as , JARI ARAI KATRI MIROS and TAI to share information about road safety especially on topics related to motorcycle safety, NCAP and active safety technology/ researches, which are very fruitful for us.**

## [JARI]

- **Details about motorcycle accident data analysis to identify problem and share idea how to solve the problem**
- **Many aspects (approaches) for reducing motorcycle accident such as technology, regulation, enforcement etc.**

## **[MIROS].[TAI]**

- **How to enhance the research/ development about vehicle (car, pick up, truck) that friendly for motorcycles.**

## **[ARAI]**

- **Methodology to investigate/ report accident.**

**“ Ways toward reduction of  
motorcycle accident.”**

# Thank You
